Available on Lowes.com

Kitchen-in-a-box Solutions | Individual Cabinets and Accessories | All ship directly to consumer

"Just finished installing my kitchen products and it looks great. It was very easy to install, the whole thing took 1.5 days and these are two big projects. Feels high-end and comparable to a custom kitchen. I bought the whole package with cabinets, countertops, hardware, sink, and faucet. Every piece was great. The all-in-one approach is definitely the way to go.
